2. TEACHING-LEARNING AND EVALUATION

2.3 TEACHING LEARNING PROCESS

2.3.1: Student centric methods, such as experiential learning, participative learning and problem solving methodologies are used for enhancing learning experiences and teachers use ICT- enabled tools including online resources for effective teaching and learning process

1. Experiential Learning

1. Field Visit - Trip to Lohagad

The main objective of organising a Field Visit is to give students an experiential learning about the subject matter of their curriculum. We organised Fort visit to Lohgad Fort to give an experience and knowledge about ancient monuments, its structure and history associated with this fort. Students actively participated in this field visit. Assistant Professor Pravin Nikam was accompanied the students to ensure the discipline and security of the students.

Lohgarh Fort, which is situated close to the hill station Lonavala and 52 km (32 mi) northwest of Pune. The fort is connected to the neighbouring Visapur Fort by a small range. Students learned about How it could have been difficult to win such fort and also how people of that age have survived.

2. Factory Visit – visit to Cupboard Manufacturing Plant

The main objective of organising a Factory Visit is to give students an experiential learning about how the manufacturing activity actually happens. College organised a visit to Cupboards manufacturing plant near college in Academic Year 2022-23. Students visited the factory and learned about the steps involved in manufacturing process. Assistant Professor Neha Pawar was accompanied the students to ensure discipline and safety of the students. Students actively participated in this Factory visit and gained the knowledge of real manufacturing process.
